

Testimonials

NutraGenomix testing

My wife and I were feeling old, stale and lethargic. Sue had struggled to maintain an ideal weight for years, despite eating a healthy diet and exercising well. After having our DNA profiles done, we were both amazed at how much better we felt once eating the right food groups. We modified our usual diets as recommended and over the next few weeks we both had more energy through the day and were sleeping better. Sue steadily lost weight at about 1kg per week, but the best part was that she felt great at the same time, and didn't feel like she was missing out on interesting food. The dietary supplements are an integral part of the program and are tailored to the individual according to the DNA results. Knowing which food types suit your own body allows you to make an easy and amazingly effective lifestyle improvement!

NRGY Sports Relief

I developed a back problem so I began to use the NRGY Sports Relief it has become a mainstay of the way i treat my back. I also recommended it to my friends mother who has arthritis in her knees she is in her 70's and takes it daily .We have been using NRGY Sports Relief for about 6 yrs now and would encourage anyone to try it

Frances Fox

"I have been taking NRGY Sports Relief tablets now for 2 to 3 years and have found them to be excellent. I have been diagnosed as having primary osteoarthritis and due to this I have chronic muscle and joint pain. I regularly take NRGY tablets at double the maintenance dosage and this has been keeping my pain to a minimum so I can now keep up an active lifestyle and do most things with very little stress including horse riding and Pilates. As well as the pain relief I have never experienced any side effects from this product whereas I have had previous side effects with other products."

Annie Hay, New South Wales.

I have been taking NRGY Sports Relief capsules for just over a year now. I had sore feet and heels for nearly a year and the pain was getting worse. Every morning I struggled to get out of bed and felt crippled with pain in my feet finding it hard to walk. The pain would ease throughout the day but never disappear. I tried a variety of creams and heel supports in my shoes but found it made no difference. A friend told me about NRGY Sports Relief and I decided to give it a try. I was told it may take a while to kick in and make a difference and I found that to be true. It was at the end of my 3rd bottle I found the pain to be greatly reduced and soon after, and to this day, I have no pain at all! I am very happy with the results and I have been able to reduce the number of capsules I take a day. I will continue to take NRGY Sports Relief and enjoy the freedom of pain free feet!
